## Honors Course Request

I understand that by signing this document, I am enrolling my students in a course for Honors credit for the Semester and will adhere to the policy as stated below.

### Honors Course Policy

- Honors placement is depended upon student interest and teacher recommendation.
- **Honors courses cover the SAME content as the grade level course, but have additional projects and enrichment activities added to fulfill the requirements of Honors credit.**
- Once students are enrolled in honors courses, they are committed to completing all assignments for the course, and the final grade will reflect the student's work throughout the semester. Student transcripts will reflect the Honors credit and course designation.
- Students will NOT be allowed to drop down to the regular course after committing to honors course requirements.

**Return this completed form back to your counselor.**
